Subject

Geography

Term 2

'The World'

By the end of the block, children should know –

- The continents and oceans and how to locate them on a map of the world
- Key physical and human characteristics and environmental regions of continents
- Identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle.
- The Prime/Greenwich Meridian and how to use time zones (including day and night)
- To use four and six figure grid references to locate places on a map
