

BRENZETT C.E SCHOOL

TERM 1 NEWSLETTER OCTOBER 2025

Welcome to this term's newsletter, where we celebrate some of the highlights of the past seven weeks. Our school value of Community has been evident in abundance this term, so please enjoy this little flavour of what's been going on behind the scenes.

ACORNS

Our new little Acorns have taken to school life brilliantly and are already absorbed in learning their core skills: reading, writing and number recognition.

As you can, they are thriving socially too! We have been so impressed!

BUDDIES

To help our Acorns settle in, we have buddied them up with our helpful Oak Class children. They get the chance to read together every week and to have a friendly face to look out for them at play-times.

Both classes are benefitting as you can see!

WOW! DAY

We enjoyed our first special WOW! day this term, where the children get to try new things. This term the theme was Autumn and the children enjoyed a carousel of activities including Autumn artwork, story writing and our special sport, archery.

Design Tech

Cherry Class have been designing and making a Chair for Baby Bear in DT this term. This project really taught them a lot about our school value of resilience as they had to be adaptable and reflective.

GREEN FLAG AWARD

We are really proud that we have been recognised for our environmental work for the second year running. Mrs Crosby and her team of Environmental Warriors have been sewing, growing and tidying as well as campaigning for further improvements at the school including better recycling facilities. Well done to all involved.

LIFE-CYCLES

Oak Class have been learning all about Life-Cycles this term in Science. They made these ingenious stages wheels and learned to identify the different parts of flowering plants.

Miss Crumble in action. You never know which hat it will be today!

Cherry Class have been learning all about number this term.
